NEWS IN WINTER

New premium 10 seater gondola lift
“HELMJET Sexten”

After almost 40 years the Monte Elmo Sesto cable car is being replaced by the new, detachable premium 10-seater “HELMJET SEXTEN” gondola lift. Thus the main entrance in Sesto is given a massive upgrade: the state-of-the-art facilities will offer the guests much greater comfort while reducing the rush and waiting times of the old system.

The new slope “Moos-Sexten”

Also the variety of slopes in the 3 Zinnen Dolomites ski resort will be increased. In addition to the new lift system, there has been added a new slope. The blue slope "Moos-Sexten" leads from the Drei Zinnen slope to Monte Elmo. Thanks to this new slope the whole family can easily master the new ski connection between Monte Elmo and Croda Rossa.

Sledging - Fun at every turn

You'll have fun at every turn on one of the two sledging runs on different mountains. Our cable cars and lifts will take care of the challenging part, namely transporting the sledge uphill. That means you can fully concentrate on the joy of sledging. Snow machines ensure that the sledging runs are snow covered even when winter is not on our side!
